### THE U.S. SHIPPING BOARD IRREGULARITIES.

#### Mr. Schwab's Denial.

New York, January 22.  
Giving evidence before the Committee of Investigation into the alleged irregularities of the Shipping Board's accounts, Mr. Charles Schwab emphatically contradicted that his personal expenses for October 1918, amounting to \$260,000, were charged to the Board and denounced colonial subsidies allegations. He declared that he paid all his own expenses while Director-General of the Emergency Fleet Corporation.

#### FRENCH POLICY.

##### Intimate Alliance with England.

Paris, January 20.  
M. Briand, before the Chamber, and M. Marraud (Minister of Interior) before the Senate, read a declaration outlining the Government's views regarding the present situation. This stated: "The Government, fully aware of the seriousness of the present difficulties, is ready to face them. Despite Treaties, France does not know yet a real and lasting peace. Germany's disarmament is essential to France's security. The carrying out by Germany of the Peace Treaty is necessary for the reconstruction of the devastated provinces and the restoring of French finances. France is not unreasonable. She does not ask for impossible things—only what is due her. Close agreement of the Allies is an essential condition for a settlement of the problems pertaining to the re-establishing of real peace. France feels confident that England, our great friend and ally, will help her to that end. Nothing can endanger the bonds uniting the two nations who spilled their blood in common in so many battles. An intimate union between England and France is the best guarantee of the world's peace. The Alliance with Great Britain remains the keystone of France's foreign policy everywhere." The declaration wound up with an announcement that efforts will be made to reduce expenses and re-establish finances on a sound basis. Commerce, industry and agriculture will again be given free scope. —Havas.

#### IRISH AFFAIRS.

##### Ambush Party Surprised.

London, January 21.  
A party of a dozen ambushers, apparently watching for "Black and Tan" from Germenstown, the training centre for the Royal Irish Constabulary north of Dublin, was surprised by Cadets at Tulka Bridge, near Dublin this morning. One of the ambushers was seriously wounded and six taken prisoner. The authorities in Dublin, learning of the ambush, rushed off Cadets in motor cars. The ambushers, who were provided with bombs, bolted after a rapid exchange of shots. The Cadets had no casualties.  
Five alleged Sinn Feiners were brought up at the South Western Police Court in connection with the Wandsworth sensation reported on January 15. One was bound over and the others remanded for a week.

#### A SURRENDERED ZEPPELIN.

##### Useless to the Italians.

London, January 21.  
A Berlin telegram states that a Zeppelin which was recently handed over to Italy was badly damaged on landing at a trial flight near Rome, three of the Italian crew being killed and several injured. The telegram alleges that the Italians were unable to repair the damage and the Germans refused to replace the damaged parts, as being contrary to the Peace Treaty. The Italians have decided to scrap the airship. The Germans show ill-concealed satisfaction and suggest that the Zeppelins delivered to Britain, France and Japan will meet with a similar fate.

#### ITALIAN SOCIALISTS.

##### Vote on Joining the Internationale.

London, January 21.  
The Italian Socialist Congress at Leghorn voted by a large majority in favour of acceptance, with reservations, of Moscow's twenty-one conditions for joining the Third Internationale. Lenin, however, insisted on unconditional acceptance.

#### THE REPARATION QUESTION.

##### Germany May Pay Three Instalments.

London, January 21.  
It is authoritatively stated that there is reason to believe that the Germans will agree to pay three annual instalments for reparations, following the decisions reached at Spa and Boulogne.

#### LAWN TENNIS.

##### America Again Beats Australia.

Sydney, January 21.  
In the second tennis test match between Australia and America the latter won by 3 to 0. Washburn beat Hawke 6/4, 6/4; Johnston beat Heath 6/3, 6/3; Tilden and Johnston beat Brookes and O'Hara Wood 10/8, 2/6, 7/5, 6/2.

#### NEW FRENCH GOVERNMENT.

##### A Vote of Confidence.

Paris, January 21.  
The Chamber has passed a vote of confidence in the Briand Government by 475 votes to 68.

#### CHINESE MINISTER TO FRANCE.

Paris, January 20.  
Tobing Lo, recently appointed Chinese Minister to France, has arrived at Marseilles.—Havas.

## REUTERS' TELEGRAMS.

### UNPOPULAR GOVERNMENT.

#### Mr. Bonar Law on the Situation.

London, January 22.  
Mr. Bonar Law, speaking at the Edinburgh Merchant Company's dinner, admitted that the Government was unpopular, which was natural in view of post-war reaction. Regarding Ireland, there was a conspiracy to break the connection with Britain, which could not be done without endangering the security of the United Kingdom. In such circumstances there were bound to be excesses, but the Government would not allow coercion. The present economic distress was an inevitable sequel of the great war. Concerning the difficulties of the Peace Treaty, Mr. Law ascribed the delay in the Turkish Treaty to the American position. Indeed it was the absence of America from any part of the borders that distracted Europe and made the position so bad.

#### JAY GOULD AGAIN WINS TENNIS CHAMPIONSHIP.

Philadelphia, January 21.  
Jay Gould defeated Jack Soukup by five sets to one in the last of nine for the tennis championship of America.

#### ENGINEERS' BALL.

##### An Enjoyable Function.

The Engineers' Ball, as it is popularly termed, is always regarded as one of the most popular functions of its kind in the Colony. Arranged by the Institution of Engineers and Shipbuilders, it took place last night at the City Hall and Theatre Royal, and it was voted by all who attended as an event well maintaining past traditions. There were some 800 invitations accepted, a number smaller than one associates with the St. Andrew's and St. George's Balls but sufficient to make it a thoroughly representative gathering whilst at the same time conducting to general enjoyment from the fact that the ball-rooms were not unduly overcrowded.

This year the scheme of decoration was less ornate than on other occasions, but nothing was lost in effect for there was a note of simplicity about the Decoration Committee's achievements, the predominating colours being red, white and blue. Over the entrance to the City Hall was an illuminated ship's propeller, whilst at the head of the staircase was displayed the crest of the Institution. On entering the building, the scene was most striking, bunting, red, white and blue drapings, national shields and palms and pot plants combining to produce a most happy effect. In the St. George's and St. Andrew's Halls, where the dancing took place, tricolour schemes were again in evidence, with large streamers extending from the ceilings to the floors.

Supper was served in the Theatre, which had been transformed by flags, bunting and effective drapings. A feature was the display of 300 roses on the tables, these being very kindly given by Mr. Nicholson, of Cosmopolitan Docks. The Hongkong Hotel did the catering in its usual satisfactory manner.

The menu was as under:—

## SHIPPING NOTES.

### (By "Neptune.")

A new addition to the fleet of the China Navigation Company is coming out from Home. Her name is the s.s. Kalgan. She has separate saloon and staterooms for European and Chinese first-class passengers, and also accommodation for Chinese steerage passengers. The cargo arrangements include eight steam winches and derricks as well as a special derrick for dealing with lifts up to thirty tons. Her principal dimensions are—Length between perpendiculars, 310 feet; breadth 44 feet; depth 23 feet. She is arranged to burn oil and coal alternately, and water-tight doors are fitted for the transfer of cargo, as well as through the usual deck hatches.

The Telegraph recently gave out that the Cap Finistère, a German liner, has been allotted to the Japanese Government and was to be put under the management of the Nippon Yusen Kaisha. I see from the Home papers recently to hand that the purpose to which she is to be put is not yet known, but it is rumoured that the Japanese Government has for some time been on the lookout for a fast, sizeable liner for the Navy which would be suitable for conversion into a seaplane carrier. The Cap Finistère was in German waters when the war broke out and did a certain amount of work as a transport in the Russian campaigns of 1917 and 1918.

The number of German ships offered for sale up to date totals some 155, and the proportion of sales certainly justifies the opinion generally expressed that sales to date have met with a success altogether beyond general anticipation. It would certainly be interesting to see what the result would have been had the sales been carried out by a Government department instead of by Lord Inchcape. Probably the vessels would have rotted at their anchorages before the preliminary notices decided their fate. There is no doubt that the results achieved by Lord Inchcape constitute a record, not only in the quantity of tonnage, the number of ships disposed of and the prices but chiefly as to the short time covered by the sales.

I have already harped on the pilferage evil, and last week pointed out that notwithstanding the precautions taken by the merchants to make their packages secure and impregnable the art of pilferage has become so perfect and widespread that it is manifestly necessary that more efficient measures must be taken in addition to sound packing. The most efficient way of dealing with this evil is for the carriers of goods to exercise responsible supervision of the cargo. If shipowners are responsible for this risk when the goods are in their charge they would, as a matter of course, exercise increased vigilance and take more effectual precautions and enforce on their employees closer supervision than they in the nature of things do at the present moment.

The Manchester Association of Importers and Exporters have just addressed a letter to the principal shipping conferences pointing out that with clauses in bills of lading contracting the shipowner out of all responsibility for negligence of the fault of their servants and making it incumbent on the cargo owner to insure against pilferage there is little wonder that pilferages are on the increase. "The joint committee," they state, "feel assured that if shipowners agreed to face the task of following out this proposal to undertake this insurance and accept the duty and responsibility of combating the evil, they would soon be able to devise measures which would reduce the heavy

## ARMED ROBBERY.

### In the City Last Night.

The central part of the city experienced an armed robbery last night. At about 8.15 p.m., a Chinese, armed with a revolver, secured entry into No. 30, Stanley Street on the pretext of having a letter to deliver to one Liu Kam-sam, a concubine who occupied the upper floor. Pointing the weapon at the inmates, he forced them to surrender the keys of a number of boxes and drawers in which valuables were kept. The robber had the assistance of three others who made their appearance directly after him and participated in the overhauling of the premises, resulting in the discovery of a pair of bracelets and a gold wristlet watch from a chest of drawers, twenty pieces of clothing, of the value of \$300, from a box, a sum of money from the cash box, and other articles of value from other receptacles. The robbers took possession of these, as well as a pair of ear-rings and a number of finger rings which they removed from the concubine. The robbers stayed in the house for a long time, and eventually made their exit with booty estimated to amount in value to \$900.

## GOING HOME.

### Mr. Hough Leaves To-morrow.

Mr. T. F. Hough leaves Hongkong to-morrow for Shanghai. He has been in the Colony for some time, and his departure is a farewell to a resident of nearly forty years standing. Mr. Hough came to China from Calcutta, with a record of military service behind him of which he has been always legitimately proud. He entered the employ of Messrs. Jardine, Matheson & Co. subsequently joining the firm of Messrs. Hughes and Hough, with which he has been associated down to the present time. It is, however, not only in commercial circles that his name for a long time will awaken memories. In all the social and sporting activities of the Colony he has been a prominent and welcome figure, and in racing circles he will be particularly missed. To all but the newest frequenters of the Racecourse, the coming Meeting will seem to lack sadly by his absence.

There are probably few men who have so many acts of quiet kindness to their credit as Mr. Hough—kindnesses which never can be known to any but the giver and the recipient, and in lending expression to the wish of his many friends that this large-hearted citizen may enjoy many happy years at Home, we sadly record the severance of a link with old days in China, valuable in the forging and impossible to replace.

losses that are now sustained from pilferage. The liability for loss in this connection should be with those who have the custody of the goods, and who can control their supervision and handling whilst they are in transit."

The freight market since the beginning of the month has been looking up. There has been more demand for tonnage, principally from Saigon to Bangkok. Owing to the small number of medium-sized vessels available, the Saigon to Hongkong rate has advanced to 30 cents per cwt. From Bangkok to Hongkong a large number of Japanese vessels have been closed at from 35 cents to 38 cents per cwt. loading inside the bar and 10 cents less for cargo taken on board outside the bar. Japan coal rates have further declined from South Japan coal ports. Two fixtures are reported at year 450 and to Singapore 10 yen.

## DAY BY DAY.

A grass fire on the hills at the back of Kowloon attracted considerable attention last evening by the remarkable glow it gave. It lasted from seven o'clock to midnight.

The China Mail S.S. Co. is in receipt of a telegram from its Shanghai Agency advising that the s.s. Nile sailed from that port on Friday, January 21st, and she may be expected to arrive at this port on Monday, January 24th, at daylight.

The discovery of the dead body of a Chinese man, with its attendant revelation of a brutal murder, has been made by the Police on the pathway leading from a village near Kowloon Tong to Tai Po Road. A number of deep stab wounds covered the body from the neck to the extreme part of the abdomen. The murderer or murderers have not been traced by the Police, although active investigations are now being carried out. The remains of the unfortunate man were removed to the Kowloon Mortuary yesterday.

Madame Lottie Gordon's grand charity concert in aid of the Blind Home, Kowloon, and the Pokfulam Home takes place to-night at the Theatre Royal. The concert is under the patronage of H.E. the Governor and Lady Stubbs, Admiral Sir Alexander and Miss Duff, Major General and Lady Kirkpatrick, Commodore and Mrs. Bowden Smith and others. A most charming programme is promised by the best talent in the Colony. Miss Mirova, the clever Russian dancer, accompanied by Mr. Leo Podolsky, the brilliant pianist, have kindly consented to give their services without fee.

Monsieur Pomeroy, General Director of the Far East Oxygen and Acetylene Company, has arrived from Saigon on a mission connected with the establishment of a new plant for the Company in the Colony. The reported intention of the Government to resume the Kennedy Town bathing beach where the present plant of the Company is situated, very possibly accounted for the Company's decision, although the present building is considered rather too restricted for the scope of its business. A site for the new factory, specially reclaimed for the purpose, has been found in Kowloon, and plans are now being asked for the erection of a large building to cost somewhere in the neighbourhood of \$65,000.

## HONGKONG CENSUS.

### To Be Taken This Year.

This year's census is to be taken in the Colony, as the following official notification indicates:—His Excellency the Governor in Council has been pleased, under the provisions of the Census Ordinance, 1881, Ordinance No. 2 of 1881, to authorize and direct that a Census be taken of the inhabitants of the New Territories during the period 24th day of March to 24th day of April, 1921, and of the inhabitants of the remaining portion of the Colony on the 24th day of April, 1921, and to appoint Mr. John Daniel Lloyd as Census Officer for the purpose of taking such Census.

## MATCHED FIRE.

A row of matchsheds, four in number, was burnt down yesterday on the new Sai Kung reclamation road through the carelessness of a native in leaving a lighted cigarette about. The fire broke out in the newest of the matchsheds, occupied by a carpenter in the employ of a Chinese building contractor, and soon involved the other three structures. No lives were lost, though considerable damage, estimated to amount to \$1,200, was done.

## HONGKONG CHESS CLUB.

## Annual Meeting.

The annual meeting of the members was held at the office of the Hon. Mr. J. H. Kemp, K.C., C.B.E., on Thursday. The Hon. Mr. H. E. Pollock, K.C., took the chair and there were present—Hon. Mr. J. H. Kemp, Messrs. E. Ezra, J. L. Parren, H. M. Basto, D. E. de Carvalho (Hon. Secretary), A. F. B. Silva-Netto (Hon. Treasurer), Rev. H. Copley Moyle and Captain Mills.

The accounts for the year were presented by the Hon. Treasurer and on the motion of the Chairman, seconded by Mr. Basto were passed.

It was decided that the Club should hold its meetings on Mondays and Thursdays at 5.15 p.m. and that an extra meeting be held in the evening every fortnight on the first, third and fifth Thursdays of the month from 9 p.m. to 11 p.m. It was decided that arrangements should be made for a Chess Club dinner on Wednesday, 2nd February, at 7.30, and that a match should previously be played, the loser at each board to pay for the dinner of himself and his opponent.

The Shanghai International Chess Club having sent a Challenge to the Hongkong Chess Club, it was decided to send a reply accepting the challenge and asking Shanghai to make arrangements for special cable rates and suggesting a Code.

It was also decided to hold the following competitions:—(1) For Mr. Pollock's Inter-club Challenge Shield, it being suggested that teams should be entered by the Chess Club, The Club Lusitanus, and the Navy and Army or a combined team of the United Services. (2) For the Championship of the Club, one game, all against all. Entrance fee \$1. (3) For the B players Class a knock out competition. Entrance fee 50 cents.

The meeting concluded with the election of officers for the ensuing year, as follows:—President, Hon. Mr. H. E. Pollock, K.C.; Hon. Treasurer, Mr. A. F. Silva-Netto; Hon. Secretary, Mr. D. E. de Carvalho; Committee: The Hon. Mr. J. H. Kemp, Capt. Mills, Mr. J. L. Parren and M. J. H. van Gennep Luhrs.

## THE YAUMATI SHOOTING AFFAIR.

## Police Court Hearing Commences.

Before Mr. G. N. Cress at the Magistrate's yesterday afternoon a Chinese was charged with being concerned in an attempted armed robbery in a firecracker shop in Declaration Street, Yaumati, in the prevention of which latter Sergeant Gardner was shot dead and Sergeant McWalter wounded.

Mr. T. H. King, Deputy Superintendent of Police, presented. Outlining the case, Mr. King stated that on the night of the 27th of last month, acting on information, a party of police, under Inspector Layhill, went to No. 216 Declaration Street, a fire cracker shop, and arrested themselves there to wait for robbers. At about 9.15 defendant and another man, whose identity still remained a mystery, entered the shop by the back door. Defendant came in first, and when near the counter lighted a kerosene bamboo torch. He then went forward, followed by his confederate. After a few paces the torch went out. Police whistles were blown in the front part of the shop. Defendant and the other man ran into the kitchen and subsequently into a back lane, pursued by the police. Defendant was arrested by a district watchman in Shanghai Street and brought back to the shop. The other man escaped.

A police informant deposed that he, defendant and three others who took part in the robbery, were members of a Triad Society. He visited the Club on the morning of the 20th and there overheard defendant discussing the robbery. Defendant said that if he could not go to the firecracker shop on the 20th, they would certainly go the following day. The scheme was prevented from being executed on the 20th, by a fight between the society and some outsiders. On the night of the 27th, witness was in the Club when defendant and three others set out for No. 216 Declaration Street. Defendant carried a bamboo torch while another of the party was armed with a dagger. He followed them close to the shop and afterwards reported the matter to the Police. The case was adjourned.

## BRITAIN'S ECONOMIC SITUATION.

London, Jan. 21.

The possibility of profiting by the reduction in prices to secure permanent reduction in wages is being extensively exploited. The Government is still concentrating on the economic situation on the lines of rectification of exchanges, development of a system of barter, speeding up public schemes and the extension of short time.

The draft proposals of the Labour Committee, mentioned on 11th inst., include: A universal forty-four hour week; State unemployment benefit (married men £2 weekly, single men 25s., with additional allowances for children); Total rejection of the short time proposals; Increase of school age to sixteen; An extensive scheme of public works; A system of international credits; Resumption of commerce with Russia and Central Europe.

## GERMAN DEBTS.

London, Jan. 21.

The French newspapers continue to urge a strong attitude toward Germany. Commenting on the German semi-official statement cabled on Jan. 20, the "Petit Journal" says that while France is prepared at present to demand only part payment of her debt and even contemplates the possibility of relinquishment of a portion thereof, Germany threatens to break off conversations failing fresh concessions entailing a revision of most essential clauses of the Peace Treaty. Germany's attitude renders the hope of avoidance of resort to force most unlikely.

## TROUBLE IN AUSTRIA.

Vienna, Jan. 21.

The resignation of the Cabinet, cabled on Jan. 20, is announced. The general strike foreshadowed for Jan. 20 has not yet materialised. There is intense disappointment at Britain's inability to grant a loan. Popular demonstrations are occurring against the profiteers. A procession carried gallows therefor through the city. Apprehensive profiteers are fleeing in panic. Meanwhile the workers have granted the Cabinet an extension of time, for a period not stipulated, to reduce prices with the view of suspending indefinitely over the heads of Cabinetiers the sword of Damocles as the Opposition decline to take over Government.

## MURDERS IN IRELAND.

London, Jan. 21.

Details of the Glenwood ambush, in which six police were killed, show that a patrol of ten were waylaid where the road skirted a wood. The numerous assailants commanded a clear view and poured in a concentrated fusillade upon the approaching lorry. The police replied bravely but an Inspector and five men were killed early. The remaining four continued to fight, two were soon wounded and two others escaped uninjured. Strong parties of police and military subsequently searched the countryside without success. There have been no arrests.

## IRISH ENVOY IN AMERICA.

## ELECTRIC LIFTS FOR TENEMENTS.

## A London Experiment.

Edinburgh, which like many others of the large towns, is forced for various reasons to house a percentage of its poorer classes in model dwellings of the block type, will (writes a London correspondent of The Scotsman) be interested in an innovation which is to be introduced by the London County Council in connection with the erection of the third section of tenements on what is known as its Tabard Street estate.

A electric passenger lift is to be provided, which it is thought will be much appreciated by the tenants, and which incidentally will have an important bearing upon the question of the height to which other blocks of dwellings can be erected.

Owing to the fact that these block dwellings usually run to a

height of five or six floors, it is at present necessary to provide perambulator sheds in close proximity to the dwellings, but with the provision of a passenger lift these sheds will not be required, as the tenants will be able to take their perambulators up to their own tenements.

It is believed that the introduction of an elevator will also enhance the letting value of the tenements, and it is the intention of the Council to raise the rents of these particular dwellings by such amounts as will be sufficient to cover the cost and maintenance of the lift.

The provision of the lift is purely in the nature of an experiment, but it has been approved by the Ministry of Health. In the better-class model flats lifts are provided as a matter of course, but it is believed that this is the first occasion on which a lift has been provided in a block of tenements erected specially for the poorer classes.

## THE LIABILITY OF BANKERS.

## Misapprehensions Over Commercial Letters of Credit.

In a recent issue of the *Acceptance Bulletin* of the American Acceptance Council, the leading article is entitled "Bankers' Liability under Commercial Letters of Credit." It is by Mr. Fred I. Kent, Vice-President of the Bankers Trust Co. New York, and its reproduction may be of assistance to local exporters.

The tremendous foreign trade of the United States during the last five years could not have been carried on had it not been for the Federal Reserve Act through its authorization of the bankers' acceptance and the regulations of the Federal Reserve Board covering such financial obligations.

Previous to 1914, our foreign trade had largely been financed by commercial letters of credit issued in pounds sterling and drawn upon British banks. The dollar acceptance was unknown throughout the United States in regular practice. As a market has been built up in the United States for the dollar acceptance, authorized under the Federal Reserve Act and the regulations of the Federal Reserve Board, a constantly growing number of American banks have been engaging in the acceptance business. This has been undertaken in part through the issuance of commercial letters of credit for the importation of goods into the United States. Under the terms of such letters of credit, American bankers have agreed to accept upon presentation drafts drawn upon them at sight, 30, 60 or 90 days after sight, or other periods, when accompanied by certain documents described in the letter of credit showing that the goods covered by the credit had been shipped according to the terms of the letter of credit, such as bills of lading, insurance certificates, etc., etc.

## WHEN FRICTION DEVELOPED.

During a period of stable or rising prices, operations under such commercial letters of credit are carried out with little or no friction, as there is generally a market for goods covered by the credit upon their arrival in the country of import. When, however, prices are falling and importations lose a large percentage of their value while in transit, serious difficulties may arise. Throughout the entire period that American banks have been able to accept in dollars against letters of credit issued by them, there has been steady increase in prices, with occasional periods of partial steadiness, until the recent severe drop in the prices of many staple commodities took place.

It was not unnatural, therefore, that the acceptance business of American banks should have run on smoothly during the time of rising prices, even though it was a new business to most of them, and that friction should have developed since the fall in prices started in, because it is a new business to them. Irrevocable letters of credit worked so easily and profitably during the first period that many bankers engaging in such transactions did not realize that they were assuming obligations just as binding when issuing such letters of credit as when signing cheques or receiving deposits. As a result, since prices of commodities began to fall some American bankers have had the idea that where their client, the importer, had had goods shipped to him by foreign exporters that were not according to contract, the banker could protect the importer from such fraud by refusing to accept drafts drawn upon the banker under outstanding letters of credit, whereas the banker has no such right if all of

the terms of the letter of credit issued by him have been lived up to, and he must honour drafts which are presented to him in regular order, regardless of any breach of contract that may exist between the exporter and the importer concerning quality of goods, or similar questions, if the letter of credit did not contain any stipulations in this regard that had been violated.

## NO RIGHT OF INJUNCTION.

Again, certain importers have been led to believe that they could protect themselves against fraudulent shipments by an exporter made against an irrevocable letter of credit by obtaining an injunction restraining the banker from honouring drafts drawn under such credits, whereas if the terms of the letter of credit have been lived up to, he has absolutely no right of injunction against a bona fide negotiator or endorser of such a draft. It is necessary, therefore, that every banker issuing an irrevocable letter of credit, and every importer who authorizes a banker to issue such a letter of credit, realize that if negotiators of drafts under the letter of credit see that all of the terms of the letter of credit are carried out, that such drafts must be accepted upon presentation if in regular order, regardless of any contract that may exist between the importer and exporter, and that failure to so accept will subject the banker to penalties that may involve a serious money loss if his refusal injures innocent third parties.

The acceptance under a commercial letter of credit is not any more familiar to some of our courts than to many of our bankers, and until it is better understood it is natural to expect the issuance of a few irregular injunctions, even though they must be removed upon appeal. The foreign negotiator of drafts against American irrevocable letters of credit should understand, even as should the issuing banker and the importer, that in spite of untenable temporary injunctions he is fully protected under our law just the same as he would be under the law of Great Britain if he negotiated drafts drawn under irrevocable credits in exact accordance with the terms of such credits. Of course, if foreign negotiators of such drafts find that certain American banks attempt to dishonour them, they will in the future refuse to buy bills drawn on such banks.

## NO BREACH OF FAITH TOLERATED.

It is so vital to the foreign trade of the United States, however, that the credit of the dollar acceptance be maintained throughout the world that it is conceivable that the Federal Reserve Board may well find it advisable to recommend to the Federal Reserve Banks that they stop buying the acceptances of any American banker who has so little regard for his credit, or that of the United States, that he will refuse acceptance of a draft drawn under his irrevocable letter of credit when all the terms of the credit have been complied with, even though the law later forces him to honour such draft and to make good any loss that may have been caused by his breach of faith. While the foreign or domestic buyer of American bankers' acceptances and bills of exchange drawn in conformity with the terms of dollar letters of credit will find himself fully protected under the law, the banking and business community ought not to leave any doubt that it unreservedly condemns any willful attempt to disregard sacred pledges, and that it will not permit mistaken or misguided actions of a few to jeopardize or damage the good name of a class that is jealous to keep its business reputation beyond reproach.

## SHIPPING NEWS.

## FOREIGN-CHARTERED JAPANESE TONNAGE.

Japanese ships now under charter of foreigners number 27 with a total gross tonnage of 104,700.

## DECREASE IN VALUES.

Prominent London shipbrokers, reviewing the shipping position, state that the value of steamers has undergone an extraordinary change since the beginning of last year. Then it was nothing uncommon to find £40 to £50 per ton paid for new steamers of from 4,000 to 7,000 tons, whereas today vessels of similar tonnage can be purchased for less than half these figures. A new 4,000-ton steamer has actually been withdrawn from sale by auction with only £8.18a per ton offered.

## DESERTIONS FROM BRITISH SHIPS.

A Glasgow sheriff, dealing with two firemen who deserted from the *s.s. Cloutsham* at New Orleans, declared forfeit all the men's wages both on the ship from which they deserted, and on that on which they returned to the United Kingdom, and also found them liable in expenses. In addition, he commented strongly on "the practice, unfortunately now only too common, of British seamen deserting their ships in American ports because of the higher wages, etc., offered by American shipowners."

## JAPANESE LINE LAYS UP VESSELS.

According to the Kobe Yushin, the Kokusai Kisen Kaisha has decided to lay up quite a number of its ships. The company has put all its vessels into the European, Mediterranean, Indian and South Sea lines, but most of them are handling very small cargoes due to the small movement of freight rates. It is said that the company recently failed to conclude an engagement for shipment in London even at as low as 10s. per ton. The company has now 45 ships of an aggregate of about 500,000 tons.

## NOTICE TO MARINERS.

Notice is given that the position of the wreck of the *s.s. Hsintah* is now as follows:—From the wreck, South-east Shantung Promontory Lighthouse bears S. 75° W., magnetic, distant 1.5 miles. The wreck lies in about 9 fathoms of water with her masts and top of funnel showing above high water. These parts of the wreck may be expected to wash away, leaving the wreck totally submerged. The *s.s. Hsintah* stranded on the East Rock, Shantung Promontory, during November 1920, and it was during recent salvage operations that she foundered in the above position.

## SHANGHAI FREIGHTS.

Messrs. Wheelock and Co.'s fortnightly freight market report, dated Shanghai, 13th January dates: To United Kingdom and Continent:—The situation as regards the amount of cargo offering for export remains unchanged and the only information of interest to shippers is the fact that since last writing the London Conference Lines have dropped their Homeward rates 25% all round with the exception of seeds, beans and peas, the rate on which had been lowered about two weeks ago. To United States via Pacific and via Panama and Suez:—There is no change to report on this berth as far as cargo is concerned but changes have been made in the tariff. Coastwise:—This market shows a slight improvement as far as the *Liners*, as the regular trade runs are concerned, but otherwise there is very little "outside" business offering.

"Statesman" Calcutta.  
"As the Company produced the farce last night at the Empire Theatre, it was a failure. Laughter rippled throughout the proceedings, to say nothing of breaking out into roars every few minutes."  
"Advocate of India" Bombay.  
"She Walked in her Sleep" is one of the funniest farces I have seen for a long time. It is a farce pure and simple, full of amusing scenes and witty lines."  
"Times of India" Bombay.  
"She Walked in her Sleep" played as it was in that happy farce manner, which constitutes so largely the success of the DENNISTON COMPANY, was altogether the funniest farce I have ever seen in Bombay.

THE NATIONAL LOAN OF THE FOURTH YEAR OF THE REPUBLIC OF CHINA (1915) \$24,000,000.

On the 6th June, 1917, the undersigned notified Subscribers to the above two loans that in pursuance of arrangements made with the Chinese Government, the loan service as regards interest payments would in future be adequately secured.

In regard to the redemption of the loans it was impossible at the time to make any announcement. The Moratorium of 1916 affected the Loan Service, and, although drawings have been proceeded with as funds permitted, Redemption has been irregular and behind the scheduled dates.

Arrangements have now been made which will enable annual drawings of each loan to be undertaken until their extinction, in 1924 in the case of the 4th. Year Loan and 1925 in the case of the 3rd. Year Loan.

The Ministry of Finance will notify in due course the date of the drawings to take place this year with date and place of repayment.

## REPARATION.

It would seem that at long last the Allies are going to bring the question of reparations down to tangible form. And it is high time, too. It is over 26 months ago since the Armistice was signed but, in spite of repeated Conferences, exchange of views, etc., all attempts to secure agreement on this very vital question have proved abortive. There have been meetings of the Allied chiefs at Spa, Brussels, Rome, and other places, but out of them all has come only the realization that the settlement of this question is one of the most difficult post-war problems that the Allies have had to deal with. It is easily understandable in view of the fact that almost every Ally has differing views on the matter, though it is nothing short of regrettable that it should have been so long a matter of discussion and contention.

The most recent cables to hand show that with the advent of the new French Ministry the negotiations now proceeding in Paris have been speeded up. The Reparations Commission is apparently sifting the matter in earnest in the hope of finding a practical solution which will enable the heads of the Allies to come to a definite decision at the forthcoming Conference. In fact, it has been given out that recommendations have been signed that Germany shall pay five minimum annual instalments of \$490,000,000—or a total of \$2,450,000,000. The figure is so stupendous that it is hard to understand just how much it is. The attitude of opinion as to the amount of each instalment. There has even been a difference of opinion among the Allies themselves on this point. Germany claims that she will only be able partially to meet the sum and it is stated that she is asking for some further concessions on the terms of the Peace Treaty. In the matter of coal and shipping it must be admitted that Germany has not performed so badly; she has rendered to the Allies a goodly proportion of what she contracted to give. The extent of the final reparation is all a matter of internal prosperity. It has been argued very forcibly that Germany should not be bled too white; that she should be given a chance to heal her own wounds of war. The need of Europe today is healthy States—countries that are growing towards economic independence. If Germany's obligations to the Allies exceed the margin of her prosperity she will, it is claimed by some, remain a bad debt for a much longer period than if she were given a moderate task spread over a greater number of years. On the contrary, there are those who claim that the Allies have every moral and just right to extract all that they feel is due, having no compunction for those who showed none in the days of their military folly. Our own view of the matter is that whilst regard must be given to Germany's ability to pay, there is little need to have regard for much else. So long as the German nation is not reduced to the unprofitable position of a bankrupt there is nothing to deter victor nations in extracting their legitimate demands.

The point to be remembered in this matter is that Germany set her hand and seal to a Treaty, and that Treaty must not be reduced to the worthlessness of another "scrap of paper." Let us presume for a moment that Germany and her allies had come out of the war victors; would there have been a tithe of the consideration shown us that we have shown her? We believe that the Allies are not looking at this matter of reparations from the purely mercenary aspect; there is a principle involved—the principle that any nation which dares to wage a war of conquest on others must be punished, must be made to feel the error of its ways. To let Germany off lightly now would be tantamount to sparing the rod of correction, and would in effect be making the Allies pay for the defence they had to provide in combating the menace offered. Let it be recognised that Germany must live—we are quite agreed on that point—but let it also be recognised that Germany must learn to live in peace with the rest of the world; must be convinced that her dreams of world-domination were but dreams, and bad ones at that. Germany has to pay, and in considering the amount of payment let there be a due regard for the rights of future generations. If the Allies are going to err at all, let them err on the side of safety to themselves.

## NOTES &amp; COMMENTS.

## A Farewell Speech.

A farewell speech by Mr. Alfred Sze, Chinese Ambassador to the Court of St. James, on the occasion of his translation to Washington—he and Dr. Wellington Koo having changed over—contains some noteworthy observations, as when he states that the present difficulties in China are the marks and signs of transition, signifying not decay, but vitality. This much was hailed to the East at the time. From a fuller report we see that Mr. Sze supports his case by quoting the time which other nations have taken to settle down after adopting a Republican polity. A remark by Mr. Sze upon another question raises some doubt. The diplomatist states that, unless his country's intentions are detected by foreign interference, peaceful development is assured, "because the whole of Chinese culture rests on the power and appeal of moral force as enjoined by Confucius." Material force is regarded so meanly by the Chinese, says Mr. Sze, that the fighting man is the lowest member of the social hierarchy. This may be true of the "common soldier," but what of the Turbans?

## The Stowaway.

## Up to Date.

A diverting story is reported concerning three stowaways on a vessel running between Europe and New York. When the ship arrived at the U.S. port there were three stowaways on board who were duly reported to the lynx-eyed officials. The latter ordered them to be looked up on the ship, and a guard mounted. This was done, but by some undiscoverable means or other the prisoners made good their escape from their prison and the ship. As may be imagined, when the time arrived for the visitation of the officers to make sure that the stowaways were still in due custody, there was some consternation. One of the officers, however, was a man of resource. Said he to the captain, "Leave it to me, sir; I'll fix the commission. All right?" And he did, for the officials left the vessel perfectly satisfied. They had visited the exterminated prison house and had seen three unfortunate in irons who duly answered to the names of the stowaways. So they were quite content; while the three members of the crew who had impersonated the escaped delinquents were made quite content also. Ingenuity is not always so successful. On the recent trip of the s.s. Nanjing from the Far East to San Francisco a party of Chinese concealed themselves in an oil-tank, the gauge of which they set to register "full." Here was ingenuity, despite which the voyagers were detected, and are now on the way back to old Cathay. Bad job!

## M.C.C. Lose the Rubber.

There was a good deal of surprise, and not in the Mother Country only, when the M.C.C. lost the opening Test match. The M.C.C. team is a collection of well-tried players, and their preliminary games in the Commonwealth gave promise of some notable performances out there. The Australians won the first of the series of representative matches in good style, but there was substantial reason for thinking that the English team would restore the balance. It was a distinct check when Australia, perhaps with the best of the luck, was handily successful in the second Test match. Even then there was hope for the visitors, with the precedent of the previous tour, when the English won secured the rubber by a trio of victories after being beaten in the first two games. When the match which Australia has just won was entered upon, it was, of course, necessary that the M.C.C. should be successful if they were to stand a chance of taking home the "ashes," which lent a special interest to the occasion, and the remaining matches would have been invested with similar interest. "Two all," as on the occasion of the previous tour, would have led up to an extremely exciting final. As it is, the remaining matches will be relatively tame.

## The "Corstalks" are certainly

to be congratulated upon their brilliant showing. Kelleway, Pellet and others gave a sample of their prowess when they played in England with the Australian A.I.F. team, but they have surpassed themselves during the last month or two. Australia's latest triumph was not due to any bad breakdown on the part of the M.C.C., who scored 447 and 370, which enhances the merit of the Colonists' achievement.

## DAY BY DAY.

THE CONDUCTING OF GOVERNMENT BY THE WILL OF THE MAJORITY IS THE MOST COMPLICATED OF ALL HUMAN UNDERTAKINGS.—Lord Bryce.

There was a clean bill of health in the Colony yesterday.

Messrs. J. M. da Rocha and Co. have been granted a licence to trade under the Non-Ferrous Metal Industry Ordinance.

Regulations regarding crackering during Chinese New Year, and traffic regulations for the Races, are published in the Gazette.

It is notified that His Excellency the Governor in Council has appointed Wednesday, 9th February, to be observed as a General Holiday.

The funeral of the late Rev. Matthew Pong Yatsau is to take place at the Kowloon City cemetery to-morrow (Sunday), leaving the Holy Trinity Church at 2.30 p.m.

Kowloon Island Lot 1407, situate at Portland Street, is to be sold at the P. W. D. Offices on February 11th. The area is 8,213 square feet, the annual rent \$94 and the upset price \$4,928.

Lady Stubbs is to present the prizes on the occasion of the St. Stephen's Girls' College speech day. The function takes place at the Y. M. C. A. Hall, Bridges Street, at 3 p.m. next Saturday.

Mr. and Mrs. Chatham will leave Blake Pier at 9.15 to-morrow (Sunday) morning. They take this opportunity of bidding good-bye to all those friends whom they have been unable to see before their departure.

These instructions do not apply to Chinese who have lived in Cuba or Mexico, and who are in possession of documents authorising their return to those countries.

## 1896.

## HONGKONG TWENTY-FIVE YEARS AGO.

(Compiled from the "Hongkong Telegraph" files for week ending Jan. 22nd, 1895.)

## THE DOLLAR.

Jan. 23rd.—The rate of the Dollar, on demand, to-day is 2s. 1s. 3d.

## NOTHING PREJUDICIAL.

Jan. 23rd.—After reading Dr. Ho Kai's letter in reply to Mr. Ho Amei we are unable to see that he has justified the statements contained in the letter signed by himself and Mr. Wei Yuk. In that letter he insinuated that at the opening of the Chinese Chamber of Commerce there were things done and said which he and Mr. Wei Yuk, as British subjects, could not countenance or assist at. It turns out now that there was nothing done, or said, to which any British subject could have reasonably objected, or which could have rendered it unreasonable or impossible for him to have been present. Certain things were omitted to be said or done which Dr. Ho Kai and his friend thought ought to have been in the programme, and their absence from the opening ceremony was attributable simply to the fact that they did not have their own way in arranging the details of the proceedings.

## A LOCAL PHENOMENON.

Jan. 24th.—Hongkong is finished. At least so say some Chinese because a peculiar optical illusion was in evidence at 5 to-day extending from the Peak flag-staff direct towards the heavens. It looked to the naked eye like a long and narrow column of smoke about three times the circumference of the flag-staff, and was in the opinion of some witnesses, somewhat similar in appearance to a distant waterspout.

## A COLLISION-MAT IDEA.

Jan. 24th.—Yesterday afternoon His Excellency Admiral Makaroff, of the Imperial Russian Navy, met a number of leading residents in the Chamber of Commerce Room and explained his scheme for minimising the effects of collisions at sea by means of a device which he termed the "collision mat."

## A GRIM DISCOVERY.

Jan. 24th.—The skeleton found on Sunday near Magazine Gap was brought in by the Police this morning and the uniform has been identified by means of regimental numbers on the clothes, as that of the unfortunate Private, named Baldwin, of the Rifle Brigade, who disappeared last June.

## HONGKONG IMPORTS.

## Chamber of Commerce Reports.

The fortnightly Price Current and Market Report, published by the Hongkong General Chamber of Commerce, states:—

Cotton piece goods and fancy cotton goods.—The market has shown no signs of a revival of business during the past fortnight. Owing to a rise in cotton, Manchester quotations have been stiffened, prices advancing 3 to 4%.

Cotton Yarn.—The tone is quiet and demand has been very slack. Values generally show declines of about 2 to 3 per cent. Quotations are:—No. 10s \$155/190. No. 12s \$160/190. No. 16s \$180/200. No. 20s \$182/210. Arrivals nil. Sales 2,000 bales. Shipments nil. Unsold Stock 10,000 bales. Bargains 10,000 bales.

Woolens.—The depressed condition of the past months still prevails but it is expected that there will be an improvement after the China New Year.

Kaw Cotton.—Market is very quiet and values are nominally as follows:—Indian descriptions \$20/29 per picul, Chinese descriptions \$27/34 per picul.

Metals.—Small quantities of steel bars have been done to arrive at \$6.75 per picul. Nails have also been sold at \$11 for the 1 1/2 to 3 assortment at \$12.50 for the 1-1 1/4. Prices from London are considerably lower. Local prices are easier, but there has not been much moving. There should be some enquiry from up country after the New Year settlement.

Flour Market Report.—Stock: About 190,000 sacks. Quotations:—American Patent, \$4.75 per sack; American Cat, \$3.35 per sack; American Straight, \$3.20 per sack; Shanghai Flour, 2nd, \$3.05 per sack.

## H. M. S. "HAWKINS".

## Dance and Social Club.

The spacious Quarterdeck of H.M.S. "Hawkins", flagship of the China Squadron, provided a spectacle unique in the history of the China Squadron when the Dance and Social Club entertained their Fleet mates from H.M. ships Alacrity, Colombo, Ambrose, and Bluebell last night.

The capacity and excellence of the Quarterdeck of the Hawkins for dancing is well-known to the residents of Hongkong, but few can appreciate without viewing it the spectacle presented by some 400 men of His Majesty's Fleet dancing with a lit and away that for skill alone defies conception by the average land-lubber or ball-room dandy.

The music was provided by that excellent combination known as the "Hawkins Quartette", under the direction of Mr. A. A. Dawes, of whom it is necessary to say but little, there being but few guests at private dances and hotels in the Colony who have not experienced the delight of dancing to the rhythm and musical effect which it invariably provides and places it unquestionably paramount amongst dance orchestras in Hongkong. The programme was a delightful one.

For the non-dancers, cards had been provided and a whist drive organised on the Boat Deck.

Mr. J. Humphreys, the popular Chairman of the Club, officiated as M.C. in his usual excellent style, and the whole of the arrangements were made by the working Committee of the Dance and Social Club.

The facilities afforded by the use of the Quarter Deck were the subject of much comment and undoubted appreciation by everyone, and is a further outstanding instance, amongst many provided by the Flagship, of the ideal relations existing between officers and men in our present-day democratic Navy.

Getting into touch with several of the senior members, the information was volunteered that in periods of service varying from 16 to 20 years they had never previously been shipmates with such an excellent organisation as the Dance and Social Club, nor with such a sporting ship's Company, and that the term "Appy Awkins" was not by any means a misnomer.

"The King" brought the dancing to a close and the guests reluctantly departed, carrying with them an impression of goodwill and hospitality coupled with the memory of one of the most enjoyable affairs that could possibly be imagined.—Contributed.

## COLONY'S FINANCES.

## Some Interesting Figures.

The Gazette contains a comparative statement of revenue and expenditure for the period ended 31st October, 1920, which shows that on an estimated revenue for the year of \$15,314,900 a sum of \$11,922,535 had been secured up to the end of the month named; whilst on a year's estimate of \$14,835,473 there had been spent up to October 31st a sum of \$10,544,651.

The total revenue for the month of October was \$1,292,019, against \$1,503,310 for the same month in 1919; whilst the expenditure totalled \$1,511,070, compared with \$1,113,070 for the corresponding month a year previously. The biggest item of revenue was \$891,907, from Licences and Internal Revenue not otherwise specified, this contrasting with \$1,165,130 in the previous year. Another big item was \$139,565 secured from rent of Government property, land and houses (\$163,472 in 1919.) In outgoings the biggest item was \$230,992 in Military Expenditure (\$234,017 in 1919.) This being closely followed by a sum of \$229,345 on the Kowloon-Canton Railway (\$32,703 in 1919.) Public Works Extraordinary involved an expenditure of \$224,799, as against \$144,532 for the corresponding month in 1919.

A further statement shows that the balance of assets and liabilities on 30th September, 1920, was \$5,887,126, whilst the balance at the end of October was \$5,468,075.

## ZIONIST EMISSARY.

## Mr. Israel Cohen's Mission.

Mr. Israel Cohen, the Zionist emissary, is back again in Hongkong. Interviewed by us, he said that he addressed a public meeting at Shanghai, at the Palace Hotel, at which the British General presided. There was a fund of \$2,360, including a donation of £1,300 and three of £1,000 each. In Japan he addressed meetings at Kobe and Yokohama, the number of Jews in Japan being small. He there raised £500, besides establishing a Zionist Society in Kobe. From Japan, Mr. Israel Cohen travelled to Korea, Mukden and Harbin, where he stayed for eight days and addressed several meetings of the Jewish community. There are about 10,000 Jews at Harbin, half of whom have settled in the city since the outbreak of the war. Despite the economic distress of the majority of the community, Mr. Cohen was successful in raising £10,000 from the small number in Harbin, this contribution including two donations of £1,000 each and several of three figures. A small committee was appointed to continue the canvass. Mr. Cohen added:—"I am quite confident that the total will be considerably increased. From Harbin I travelled to Tientsin, where I also addressed a meeting at which the British Consul was present, and I raised £2,300. I then travelled to Peking and discussed various Zionist matters with the British Minister and from there I returned to Shanghai, where I delivered a lantern lecture on Palestine at a social gathering of the Zionist Association at the Astor House Hotel. This gathering yielded \$2,000. Since my return to Hongkong I have succeeded in raising the local total to \$1,350, which I hope will still further be increased. On Sunday I am sailing by the Flaxley, for Singapore where I shall stay for a week, and then proceed to Java. From there I shall return to Singapore and visit Rangoon, Calcutta and Bombay. Bombay will be the last place where I shall make an appeal, and from there I shall sail to Palestine and deliver the report of my mission. The whole campaign has been successful. I had expected more but I did not know that there was such an acute economic depression. Under the circumstances I regard the result as satisfactory. Many people here promised to increase their donations when the financial position improves. The grand total at present secured is £100,000."

## HONGKONG THEATRE.

## A Novel Attraction.

A first class vaudeville attraction will be staged at the Hongkong Theatre, commencing on Sunday night, when Mr. Hal. A. Freeman of the De-Lacey Agency, London West, will present his grand combination of English artists, direct from the best Australian theatres, comprising Trilxie, the world's leading cartoonist, Buttors, the inimitable boy comedian, and Gibson and Doreen, novelty comedy musicians.

Trilxie is aptly described as the "Venus of Vaudeville." The performance of this little lady will no doubt appeal to the people of Hongkong, as the lassie is as lovely as a rose. Buttors, is also very talented, having that gift which many older artists would do well to imitate. Buttors won fame in his Charlie Chaplin impersonations a few years ago in England and he was then, and now still, recognised as the youngest comedian, being only seven years of age. His latest success is one entirely of his own creation, entitled "Chong," being a wonderful Chinese specialty act in which this young artist spins on his head just like a spinning top. This act will be presented to-morrow night. Gibson and Doreen present an act entirely new in the musical line, wherein they combine first-rate comedy with high-class music. These artists play all kinds of novelty instruments from cowbells to cornets, including banjo, mandolin, and xylophone instruments. The xylophone played by Mr. Gibson is the most novel of its kind and is patented throughout the world. It is entirely the invention of Mr. Gibson, being made from the spokes of an old cart wheel. The whole combination presents one of the best shows of its kind and is clean, clever and convincing. Seats can be booked at the Theatre.
